

Ministry of Regional Municipalities & Water Resources to organize the Food Safety Week 2016 in cooperation with the concerned authorities
10 – 14 April 2016

Events of the Food Safety Week

Workshops
11 April

The first workshop will discuss "modern methods of microbiological laboratory analysis", while the second workshop will discuss "good hygiene practices in food processing in small and medium enterprises".

Food Safety and Traditional Food Conference
12 – 14 April

Will be held in cooperation with Sultan Qaboos University and concerned authorities. It will discuss the recent developments and issues related to food safety and traditional foods, work on exchange of knowledge and studies in the field of food safety; and contribute to raising the level of awareness of the importance of production efficiency.

The conference exhibition
12 – 14 April

Will be held with the participation of a group of institutions, enterprises and companies involved with food in order to show their efforts in the areas of food safety and quality.

Awareness-raising events in the governorates
10 – 14 April

These events will include symposiums; mobile awareness exhibitions to introduce health requirements; awareness lectures for school students; joint health inspection campaigns; field visits to all food institutions, restaurants and coffee shops, etc.
